6. Committee Chair Items (15 min.) - *Peggy Elliott*
7. Other Business
8. Set Next Steering Committee Meeting
9. Comments from Public Attendees
10. Adjourn

### *Some Considerations/Questions for the Presenters*

- How do these currently planned projects reflect the following key issues and principles guiding the new comprehensive plan:
  - 'How much to spend?'
  - 'Where best to invest?'
  - 'Getting the best bang for the buck'
  - 'Maximizing return on public investment'
  - 'Minimizing future risks to our community'
- What percentage of these currently planned projects constitutes "maintenance/repair/replacement of existing assets" versus "increasing the system of existing assets or the capacity of existing assets"?

### **Topics for Future Committee Meetings:**

- 1993 Plan 'Report Card'
- PSC completion of the WSU Survey (to submit to WSU so as to compare with the community-wide survey results)
- City of Wichita Presentation on Planned Water & Sewer Projects 2011-2020
- Review of Comprehensive Plan Content Outline
- Better engagement of our community's youth and young adults in developing the Plan

### **Project Staff Current Work Efforts:**

- Data inputs for the CommunityViz scenario tool
- Data gathering for the 1993 Plan 'Report Card'
- Data location mapping of:
  - City/county infrastructure conditions (bridges needing rehab/replacement; Wichita streets below national PCI standards; Wichita water and sewer lines over 50 years old); employment concentrations; property values/sq. ft.; population densities; ethnicity concentrations.
